THE MARIANNA

COMPLETE GAMES LIST

ARCADE & ACTION

OpenTyrian - A legendary space shooter reborn — pilot your starship through endless waves of enemies, upgrading as you go in pure retro chaos.

Vectoroids - Asteroids reimagined — sleek, minimalist visuals and frantic blasting action that never loses its edge.

XGalaga++ - An homage to the golden age of arcades — alien swarms descend in hypnotic waves, and only sharp reflexes will see you through.

Kobo Deluxe - Fast, furious, and addictive — a top-down shooter that feels both nostalgic and sharp-edged in its modern polish.

Maelstrom - A beautiful rework of the Asteroids formula, blending smooth controls with vibrant retro effects.

Chromium BSU - Futuristic dogfights at light speed — a side-scrolling shooter with high-octane energy and stylish visuals.

GLtron - Enter the neon grid — a lightcycle duel where one false move leaves only luminous trails and shattered pride.

NInvaders - Space Invaders, stripped to its essence — elegant, simple, and endlessly replayable.

Missile Command (SDL Missile) - Defend your cities against relentless missile strikes — pure arcade tension with a modern twist

Pushover - A puzzle-action classic — push the dominoes in the perfect sequence to unlock clever chain reactions.

Super Methane Brothers - Bubble Bobble with a cheeky twist — vacuum up your enemies and blast them away in comic, addictive chaos.

Pang Zero - A frantic balloon-busting battle — precision timing meets arcade madness in this retro gem.

Barrage - A rapid-fire reflex test — defend your territory in seconds-long bursts of pure arcade intensity.

Powermanga - A vertical shooter packed with energy — power-ups, boss battles, and a cascade of retro color.

Freedroid Classic - A sci-fi adventure in arcade form — dodge, fight, and outsmart robotic enemies in this charmingly futuristic quest.

Abuse - Dark, brooding, and ahead of its time — a side-scrolling shooter with an atmosphere all its own.

Kobo Redux - The classic Kobo shooter recharged — sharper, faster, and bursting with arcade flavor.

rRootage - Minimalist bullet hell — neon shapes, hypnotic patterns, and pure arcade focus distilled into perfection.

Titanion - Retro alien warfare with a modern kick — dazzling visuals paired with wave after wave of escalating challenge.

Overgod - A psychedelic arcade experience — explore bizarre worlds while battling surreal foes in an explosion of color.

SuperTux – A playful penguin takes center stage in this Mario-inspired platformer – charming, colorful, and endlessly fun.

SuperTuxKart – Kart racing with character – glide through whimsical tracks in a polished homage to the genre's greats.

Cave Story (NXEngine port) – A legendary indie adventure – explore mysterious caverns, uncover secrets, and battle in a story-driven platform classic.

Hurrican – A fan-crafted tribute to Turrican – fast-paced action, big bosses, and explosive side-scrolling spectacle.

Secret Maryo Chronicles – Classic platforming with a fresh coat of paint – lively worlds, smooth jumps, and timeless arcade charm.

Blob Wars: Metal Blob Solid – A quirky platformer where gelatinous heroes wage war in clever, tongue-in-cheek missions.

Blob Wars: Blob and Conquer – The 3D evolution of Blob Wars – a full adventure filled with color, humor, and surprise.

XMoto – Motorbike stunts meet physics puzzles – precision, balance, and creativity combine in addictive trials.

Teeworlds – A fast-paced, cartoon-style arena platformer – bouncy characters, quick matches, and endless laughs.

Hedgewars – Arm your hedgehogs and wage battle in a Worms-inspired strategy romp – tactical, silly, and brilliant in multiplayer.

Battle Tanks – Bomberman reimagined with tanks – blast through labyrinths in explosive, tactical showdowns.

Neverball – Guide a rolling ball with finesse and balance – physics-based puzzles that test your nerve and control.

Neverputt – The companion to Neverball – a physics-driven mini-golf challenge with surprising depth.

GDash – Dig, dodge, and escape – a Boulder Dash-style adventure where every move could unleash chaos.

LMarbles – A cerebral puzzle game – rearrange marbles into perfect formations against the clock.

Frozen Bubble – A Puzzle Bobble classic – aim, shoot, and pop bubbles in endlessly addictive sequences.

Fish Fillets NG – A quirky underwater puzzle – guide two clever fish through brain-bending logic challenges.

Enigma – A spiritual successor to Oxyd – elegant puzzles, marble physics, and serene design.

OpenLieroX – Real-time Worms-style chaos – customize weapons, stages, and play out hilarious battles.

Gish (open-source port) – A sticky ball of tar stars in this physics platformer – roll, stretch, and bounce through inventive levels.

FIGHTING & ADVENTURE

OpenBOR – The ultimate side-scrolling beat 'em up engine – unleash combos, join community-made adventures, and relive the glory of arcade brawlers.

Freedoom – A free DOOM universe – explore alien bases, fight monstrous hordes, and savor classic shooter adrenaline with new assets.

DoomRL – Doom meets roguelike – randomized dungeons, turn-based tactics, and demonic battles reimagined with strategy.

M.U.G.E.N. (open characters) – A customizable fighting platform – craft your own roster, stage epic duels, and explore the artistry of 2D combat.

OpenClonk – A sandbox of adventure and creation – dig, build, and battle in a dynamic world of physics and fun.

OpenArena – Arena combat distilled – a free, fast-paced shooter in the spirit of Quake, where reflex is everything.

Sauerbraten (Cube 2) – A sleek open-source FPS – fluid movement, large arenas, and a toolkit for endless new maps.

Red Eclipse – A futuristic arena shooter – wall-runs, jet packs, and lightning-fast gunplay in dazzling sci-fi arenas.

Alien Arena – Retro-futurist combat – aliens, rayguns, and over-the-top arena action with a pulp sci-fi edge

Warsow – Cel-shaded style, competitive speed – a pure esports-ready arena shooter with movement mastery at its core.

Tremulous – Humans versus aliens in a hybrid of FPS and strategy – build bases, evolve species, and fight for survival.

Smokin' Guns – A Wild West FPS – duels, bank robberies, and dusty shootouts steeped in frontier atmosphere.

Marathon Trilogy – Bungie's iconic series, now free – an epic sci-fi saga blending action, lore, and mystery across the stars.

ZDoom (with Freedoom WADs) – A modern engine for classic shooters – smooth, enhanced, and endlessly moddable for DOOM-style adventures.

LMarbles – A cerebral puzzle game – rearrange marbles into perfect formations against the clock.

RuneSword II – A blend of RPG and adventure – create parties, explore worlds, and battle through stories shaped by community mods.

Angband – An endless dungeon descent inspired by Tolkien – monsters, loot, and legendary quests in ASCII or tiles.

Dungeon Crawl Stone Soup – A refined roguelike adventure – tactical depth, dangerous dungeons, and surprising replay value.

OpenLieroX – Real-time Worms-style chaos – customize weapons, stages, and play out hilarious battles.

NetHack – A cultural icon – “Eat the corpse, wield the wand, descend again.” Every run tells a new story.

STRATEGY & CLASSICS

GNU Chess - A grandmaster in digital form — battle the computer at any level, from novice to tournament-grade intellect.

XBoard - A polished chess interface — simple, elegant, and endlessly adaptable for classic matches.

PyChess - A refined chess suite — smooth design, analysis tools, and a pure celebration of strategy.

The Battle for Wesnoth - A hand-painted fantasy epic — turn-based warfare with knights, orcs, and dragons in sweeping campaigns

Lincity-NG - Build, manage, and balance your city — a retro city simulator rich with charm and challenge.

FreeCiv - The spirit of Civilization reborn — guide a people from the Stone Age to the Space Age in grand scale

FreeCol - Relive the Age of Exploration — settle new lands, trade, and build a thriving colony from scratch.

OpenTTD - A definitive transport empire builder — railways, airports, and shipping lanes in sprawling maps.

Micropolis - The original SimCity reborn — design neighborhoods, balance budgets, and watch your creation thrive.

0 A.D. - A stunning open-source RTS — command ancient civilizations in battles of scale and beauty.

Warzone 2100 - A fusion of RTS and tactics — futuristic warfare with customizable units and rich campaigns.

MegaGlest - A fantasy RTS playground — epic armies, magical powers, and strategic mastery on massive maps.

Hedgewars - Strategic mischief with hedgehogs — a Worms-inspired artillery classic full of humor and skill.

Scorched 3D - The “Mother of All Games” — tanks, landscapes, and artillery duels in glorious 3D.

LMarbles - A cerebral puzzle game — rearrange marbles into perfect formations against the clock.

Globulation 2 - A unique RTS twist — issue commands and watch tiny AI workers build, gather, and battle intelligently.

NetHack - A roguelike legend — descend into endless dungeons where every choice can make or break your story.

Slash'EM - A bold NetHack variant — more monsters, more magic, and more mayhem in sprawling dungeons.

Angband - Inspired by Tolkien's worlds — a perilous descent through layers of darkness, treasure, and myth.

Crawl Stone Soup - A modern roguelike masterpiece — tactical depth, deadly variety, and infinite replayability.

RACING, SPORTS & MISC

SuperTuxKart – A polished kart racer – whimsical tracks, colorful characters, and pure arcade joy behind the wheel.

Stunt Rally – Adrenaline in overdrive – sweeping landscapes, daring loops, and rally racing with an edge.

TORCS – The classic open racing simulator – precision driving and realistic tracks for true enthusiasts.

Speed Dreams – A fork of TORCS with a sharper engine – enhanced cars, new circuits, and refined competition.

VDrift – Drift through corners with realism and style – a simulator built for control and flow.

Trigger Rally – Fast-paced off-road action – simple, sharp, and instantly thrilling in quick races.

Ultimate Stunts – Inspired by Trackmania and Stunts – build, race, and soar across wild obstacle tracks.

Ri-li – Guide a wooden toy train through puzzling tracks – retro charm with a clever twist.

Pingus – Lemmings reimagined with penguins – guide your waddling flock through inventive challenges.

LinCity – The classic predecessor to Lincity-NG – retro city-building charm in pure form.

Airstrike – A 2D side-scrolling dogfight – fast jets, tight levels, and pure arcade shooting.

Tux Racer – Slide a penguin down icy slopes – speed, stunts, and wintery fun for all ages.

Extreme Tux Racer – An enhanced take on Tux Racer – sharper tracks, better physics, and even more sliding mayhem.

Racer – A true-to-life car simulator – for drivers who crave authenticity in every turn.

FlightGear – The open flight simulator – take to the skies in detailed aircraft across vast landscapes.

OpenBVE – A dedicated train simulator – realistic rail systems and the charm of urban exploration.

Free Tennis – A clean, classic tennis game – easy to pick up, satisfying to master.

FooBillard – 3D billiards with polish – snooker, 8-ball, and carom in a sleek virtual hall.

Neverball – Guide a ball through mazes of physics – balance, tilt, and agility define the challenge.

Planet Blupi – A lighthearted adventure – puzzles, strategy, and charm wrapped in one colorful world.
